- **Email:** welcome@engineer.company
- **Phone:** +45 50 10 61 84
- **Post:** the registered address above

Every way in, and the profiles the company keeps elsewhere, are on the contact page.

The law that applies

Danish law applies, and the courts of Copenhagen have jurisdiction. How that works in an engagement, and what is agreed before one starts, is in the terms of business.

Every legal page

- Terms of business: how we contract, who owns the result, and how invoicing and liability work.
- Service levels: what we commit to while the work is under way, and how service levels are agreed for a system we operate.
- Data processing agreement: what we sign when we process personal data for a client.
- Code of ethics: the principles we work by, and where to raise a concern.
- Privacy: what the server records while it answers, and for how long.
- Cookies: why this site needs no consent banner.
- Security: how we build and operate, and where to report a vulnerability, which security.txt also says to machines.
- Accessibility statement: the standard this site is built to meet, and how to report a barrier.
- Copyright and reuse: what is ours, what is borrowed, and what you may reuse without asking.
- Credits: every typeface, icon and piece of software behind the site, with its licence.

Need a detail that this page leaves out? ask us.

Identify the parties and responsibilities

Identify the contracting parties, decision makers and responsibilities for the proposed delivery.
